J. OLLIE EDMUNDS,

A graduate of this university who, in his two years as president, has been building a greater Stetson to prepare students for intelligent participation in a complex world.

Dr. Edmunds is more than a college executive — he has the interest in this university's young people and activities and the proud enthusiasm possible only to an alumnus.

We gratefully dedicate our 1950 Hatter to our president and our friend.

University

1950 marks the fiftieth anniversary of Stetson's College of Law, established in 1900 and now regarded as one of the finest law colleges in the south. For many years the College of Law occupied a part of Science Hall. Several years ago, however, because of the larger enrollment of students, it was moved to the former athletic office building of the Naval Air Station.

The College of Law is a member of the Association of American Law Schools and is approved by the Council of Legal Education of the American Bar Association. Its purpose is to give to young men and women the training and instruction that will qualify them for active duties in the office and courtroom. A high conception of the ethics of the legal profession and the citizenship responsibilities of the profession is stressed.

THE STUDENT BAR

PRESIDENT ARNOWITT

The purpose of the Student Bar Association is to provide a unified organization of students enrolled in the College of Law, with a view toward maintaining a closer relationship among students of the various classes and between the individual and the administration. The Association attempts to promote the interests of the students individually and collectively, and to provide a measure of self-government for the members of the law school. It consists of the entire membership of the law school and seeks to develop an atmosphere of cooperation and better understanding among students and faculty.

The officers of the Student Bar are as follows: Gerald Arnowitt, President; Arthur Grant, Vice-President; Glen Martin, Social Vice-President; Virginialee Culbreth, Secretary; and Uriel Blount, Treasurer.

HONOR COURT

The purpose of the Honor Court is to promote an effective educational campaign against forces which are beneath the dignity of the law and the position which the law occupies in the American form of government. The Honor Court serves as a court for the trial of infractions and the recommendation of punishment in cases of guilt. The court consists of seven justices, two of which are from the freshman class, two from the junior class, and three from the senior class. The chief justice, head of the Honor Court, is elected from the seven justices.

CHIEF JUSTICE PENLAND

The Honor Court this year is led by Chief Justice Perry Penland. Other justices, representatives from each of the classes, are Earl Nicholson, Rondo Sullivan, Glen Martin, Irving Felder, Andrew Kay, and Lloyd Moseley.

The Stetson chapter was formally installed on December 5, 1947, after its petition was accepted by the National Convention in September, 1947. The officers are William Carmine, Magister; Wayne West, Exchequer; Thomas Koehler, Clerk; and Charles Warwick, Historian.

THE "B" TEAM

The Vassar B Squad, coached by Nick McIntosh, Jr., was pretty fair in its own right. The Hatty Hatters played a three-game schedule, leading Rensselaer Polytechnic Institute in their first game and losing the second on team in their next game, 16-26. In their only other game, the Pees dropped an 11-10 decision to the B Lams, Tomboys. Several of the boys on the squad were promoted to the Varsity after so winning up as 1 in the second half.

MEMO . . .

FROM THE EDITOR

Here it is, the 1950 HATTER — full of fun, memories, and mistakes! To get it out it took hours of work on Saturdays and in vacations — tears spilled over misplaced pictures — grind, grind, grind!

The purpose of the 1950 HATTER — for every book must have a purpose — has been to show that every senior is actually a product of the university; that all activities have in some way or other left an imprint on him. Besides this, the HATTER has tried to recapture a marvelous year at Stetson — only the Hatter staff can realize how marvelous it really was!

So much for the past! For the future? The members of the 1950 HATTER staff all announce their retirement.

JIMMY JORDAN
Managing Editor

The Stetson Reporter, "Florida's Oldest College Newspaper," continued its history under the editorship of W. E. (Ted) Grissett, Jr., and the business management of James C. Michael and Homer Cooksey, who took over in March. Without the services of James J. Jordan, Jr., Managing editor; June Cossin, Pat Merritt, Dorothy Brunney, Jack Griffith, reporters, and Joe Carlton, sports editor, the weekly publication of the Reporter would have been an insurmountable job. To the staff, thanks for a job well done.

ALPHA TAU CHAPTER

K A P P A P I

In the year 1935 the Hatter Art Club was formed on the Stetson campus under the direction of Miss Edith Harvey. In May, 1946, this club was installed as a chapter of Kappa Pi, the oldest honorary art fraternity among the colleges today.

Kappa Pi is composed of majors and minors in the field of art, its purpose being to promote an interest in art on and off the campus and to create a sincere love of beauty and appreciation of art.

The year 1949-1950 has seen the greatest progress in the Stetson art department since the installation of Kappa Pi, for the department now has its own Fine Arts Building, Holmes Hall, and the members of Kappa Pi are extremely proud of their new home.

DeLAND CHAMBER OF COMMERCE
Offer
Congratulations to the Graduating Class
of
John B. Stetson University

DeLand is located in the ridge section of east central Florida, 110 miles south of Jacksonville, four miles east to the picturesque St. Johns River, famous for its black bass fishing, and twenty-two miles to the renowned beaches of the Atlantic seaboard. Being centrally located practically every point of interest in the state may be visited within one day's drive.

DeLand enjoys a delightful year-round climate. There is scarcely a day that the sun does not shine, sending forth its ultra-violet rays. Children grow strong and sun-tanned, the older people add years to their life's span. DeLand is a beautiful city, appealing to those of educational and cultural background. It is a friendly city—a city you will like.

• • • to modernize your plant!

"WHEN WE started operations in 1947," writes Mr. Paul V. Gandy, President of Gandy Block & Supply Company of Melbourne, Florida, "our equipment consisted of mixer, belt conveyer, and a hand-operated block machine. To meet the demand of the area, we purchased additional equipment which upped daily production to 1700 blocks with a 5-man crew.

"THEN CAME the turning-point -- the day we investigated Appley-Yellen machinery. We were amazed to learn from Mishco what a high output we could achieve with a LOW investment cost. Our subsequent purchase of an automatic Hi-Speed block machine and proper accessory equipment produced a daily output of 4000 blocks with a 6-man crew (four on the block machine, mixer and skiphoist, and two in the yard for stacking and supplying pallets, etc.)."

THIS IS THE UNIT that did the job! Appley-Yellen Hi-Speed block machine, mixer and skiphoist. Will use any kind of aggregate; no special mixes necessary. With automatic or semi-automatic operation, individual timings of the 4 steps are completely changeable at will! All blocks of uniform density and true-sided. No exposed parts to wear from grit and dirt. In short, a super-adaptable, integrated unit designed and built to do just ONE THING WELL -- make concrete blocks (and brick) that you can sell at competitive prices, with satisfaction guaranteed!
